# **FDUCATION**

#### **DUKE UNIVERSITY**

MASTER OF SCIENCE 2023-2024 | Durham, NC **Program:** MS in Electrical and Computer Engineering

**Concentration:** Machine Learning

GPA: 3.97 / 4.0

#### BACHELOR OF ENGINEERING 2020-2023 | Durham, NC

Majors: Electrical and Computer Engineering, Computer Science

Minor: Mathematics

**Involvement:** Duke Applied Machine Learning (DAML), HackDuke Honors: Dean's List with Distinction

GPA: 3.91 / 4.0

#### PEDDIE SCHOOL

**HS DIPLOMA** 

2016 - 2020 | Hightstown, NJ Armellino Scholar: Awarded Full

Merit Scholarship

**Honors:** National Merit Scholar • US Computing Olympiad Silver Division • Academic All-Mid Atlantic Prep League • Three-Sport Varsity Athlete GPA: 4.0 / 4.0 · SAT: 1570/1600

# COURSEWORK

Deep Learning • Natural Language Processing • Statistical Inference • Bayesian Statistical Modeling • Information Theory • Database Systems • Computer Vision • Applied Probability for Statistical Learning • Machine Learning • Software Engineering • Algorithms • Parallel Programming • Operating Systems • Data Structures • Linear Algebra • Multivariable Calculus • Probability • Differential Equations

# SKILLS

Interests

**Programming Languages** 

Python • Java • C++ • C • SQL • Q • JavaScript • TypeScript • HTML • CSS Python, Pandas, Scikit-Learn, Matplotlib Libraries/Software Pandas • Pytorch • Matplotlib • Sci-kit Learn • SciPy • NumPy • React Git • Linux • Tableau • FL Studio

Violin • Lacrosse • Poker • Fitness •

Piano • Chess • Music Production

# **EXPERIENCE**

## MILLENNIUM MANAGEMENT | QUANTITATIVE DEVELOPER INTERN (Incoming) June 2024 - New York, NY

## **RBC CAPITAL MARKETS** | QUANTITATIVE STRATEGIES GROUP INTERN

June 2023 - August 2023 | New York, NY

- Rotations in quantitative research and domestic, international ETF market making
- Devised a pricing methodology and market making strategy for a particular ETF
- Researched dimensionality reduction technique for portfolio risk model
- Technologies used: Python, Pandas, Scikit-Learn, Matplotlib, Q, KDB

## **BNY MELLON** | DATA SCIENCE INTERN

June 2022 - August 2022 | New York, NY

- Researched interpretable ML feature selection algorithms for forecasting models
- Built dashboard that reduced time to configure various financial models by 75%
- Technologies used: Python, Pandas, Jupyter Widgets, Scikit-Learn, Matplotlib

#### **HACKDUKE** | TECH TEAM LEAD

January 2022 - May 2023 | Durham, NC

- Led 12-person development team of HackDuke and Code for Good websites.
- Technologies used: JavaScript, HTML, CSS, React, Bulma

# **DUKE IMPACT INVESTING GROUP** | PROJECT MANAGER, DATA ANALYST

Jan 2021 - December 2022 | Durham, NC

- Presented data analysis projects to startup leadership teams on topics including marketing, customer acquisition, growth strategy, and data pipelines
- Built statistical models and data visualizations to leverage client data
- Technologies used: Python, Pandas, Tableau, Scikit-Learn, Matplotlib

# **UPENN DAIR LAB** | SUMMER RESEARCH INTERN

May 2019 - August 2019 | Philadelphia, PA

- Internship at UPenn Dynamic Autonomy & Intelligent Robotics Lab
- Streamlined data collection, processing, visualization through C++, Python scripts.
- Technologies used: C++, Python, Matplotlib, Google Drive API

# **PROJECTS**

#### AI-ENBABLED GEOGUESSR CLONE | DEMO, GITHUB, REPORT

React, JavaScript, Tailwind CSS, Google Maps API

Built a GeoGuessr clone with a computer vision AI opponent as part of ECE 487 class team project. Personally responsible for most of game logic and front-end.

### **ELUCIDATE CHROME EXTENSION** | CHROME STORE, GITHUB, DEVPOST

AWS Lambda, OpenAl API, JavaScript, Chrome Extensions API

Built a Chrome Extension to convert the reading level and/or language of highlighted text in place. Won Education Track, People's Choice Award at Duke Generative AI Hackathon.

#### CS 671 CLASS KAGGLE COMPETITION | WRITEUP, GITHUB

Built predictive model, conducted analysis on employee attrition dataset. Placed 6/145 for accuracy on public leaderboard in graduate machine learning class.

#### CLUSTERING VISUALIZER | WEBSITE, GITHUB

JavaScript, HTML, CSS, Paper.js Vector Graphics Library

Built an interactive K-Means and DBSCAN clustering algorithm visualizer.
